WOMEN'S HEALTH AND CANCER RIGHTS ACT (WHCRA)

Under federal law, group health plans that provide medical and surgical benefits in connection with a mastectomy must provide benefits for certain reconstructive surgery, effective for the first plan year beginning on or after October 21, 1998. In the case of a participant or beneficiary who is receiving benefits under the plan in connection with a mastectomy and who elects breast reconstructive, federal law requires coverage in a manner determined in consultation with the attending physician and the patient for:

- Reconstruction of the breast on which the mastectomy was performed;
- Surgery and reconstruction of the other breast to produce symmetrical appearance; and
- Prostheses and treatment of physical complications at all stages of the mastectomy, including lymphedemas.

This coverage is subject to a plan's annual deductible and coinsurance provisions.
